Ideation Phase
Empathize & Discover

Date	03 October 2026
Team ID	
Project Name	Employee Data Import using Transform Maps (Spreadsheet) - ServiceNow
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It is a useful tool that helps teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges. For this project, the user is a ServiceNow administrator who imports employee data from spreadsheets using Transform Maps.

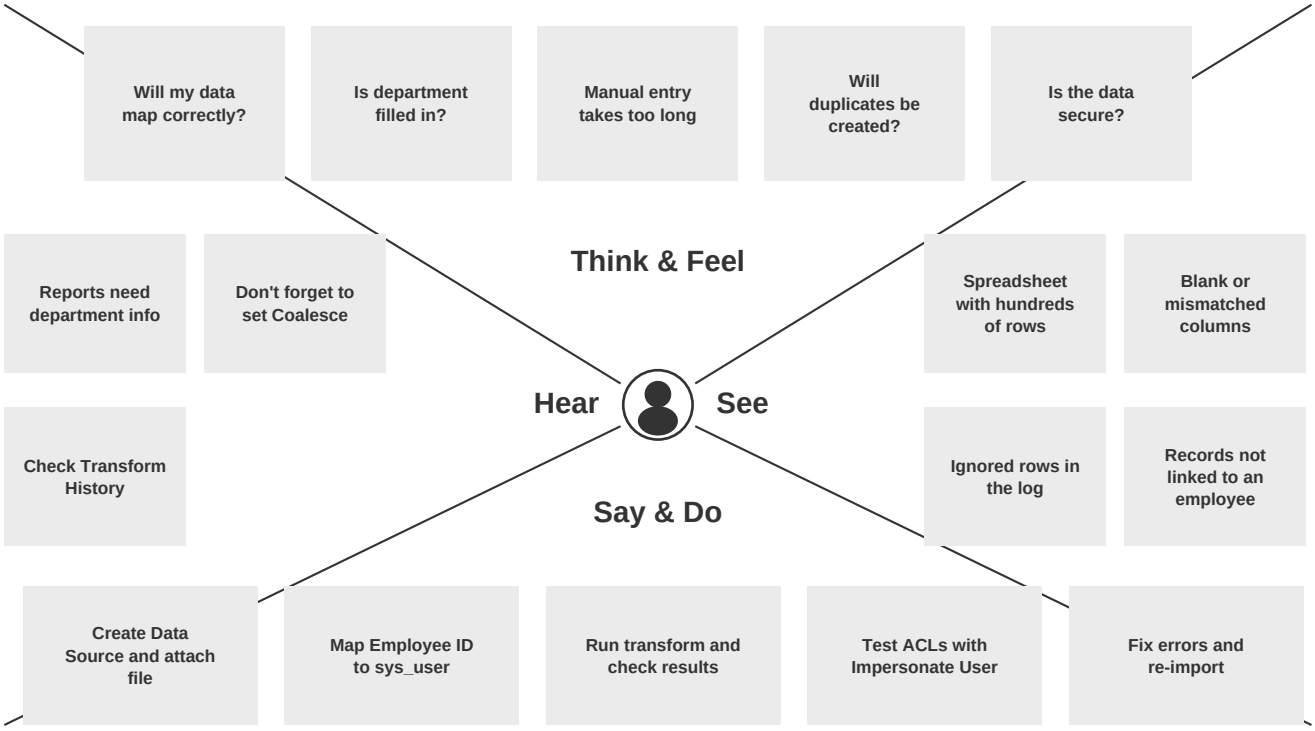
Example: Import Data using Transform Maps (Spreadsheet)



Pain

- Manual data entry
- Duplicate or ignored records
- Missing department details

Gain

- Fast bulk import
- Accurate employee linking
- Secure access using ACLs
